1. Connect People
2. Value & Develop People
3. Lead People
4. Team
5. Relevant Lifestyle
6. Spirit Powered
7. Life Related Communication
8. Generosity
9. Functionality
10. Generational

1. Connect people

Our culture connects people to God, Church and one another. People grow in connection to a local church community. Church is God's idea. God created the local church, builds the local church and loves the local church. We love and build the local church!

2. Value and develop people

Every person is loved by God and has intrinsic value just because God made us. Every follower of Jesus is also called to be a minister. Ministry is serving God sacrificially, investing and developing our talents and resources out of love for God. People develop in ministry on the basis of character (spiritual maturity), competency (spiritual gifting) and chemistry (team fit) as they commit to serving Jesus.

3. Lead people

Leadership serves God by developing others in ministry and is God given, honoured, and embraced. Leaders embrace and embody the priorities of God and his church.

4. Team

Church is a team effort. Partnership creates outcomes which are more than the sum of the parts. People flourish when they do things together. Together is a God idea. Different God given ability, linked together for one purpose, releases great potential. We build ministry teams to reach and build people and church. We partner with ministries and churches on the basis of mutual benefit and common purpose.

5. Relevant lifestyle

We stay real, current and connected with our world. We are in touch with the world God has placed us in, understanding that God has called us to a time and a place to represent Him. The church is a sent community that speaks eternal things to today's world.

6. Spirit Powered

God's will is to pour out his Spirit on all people to change lives and empower his mission. Being filled with the Spirit of God is the dynamic that empowers us to live passionate, supernatural, God orienting lives in all that we do seeking God's continuing influence.

7. Life related communication

Our message speaks to the issues of people's lives. The word of God infused by the Holy Spirit is the most powerful transforming force on the planet. But the word is only effective when it speaks people's language. We are devoted to Jesus in word and spirit to be a practical transforming influence in people's lives.

8. Generosity

Everything we do will aim for a standard of excellence and generosity reflecting God's glory, capacity and reputation.

9. Functionality

What we do and how we do things will be dynamic, flexible and empowering for building the church. We will always be open to change when it increases fruitfulness.

10. Generational

We are a cosmopolitan, multi-generational community that enables all age groups to flourish together. Like parents we seek to leave a spiritual heritage for future generations by taking responsibility for understanding, growing and preparing future generations for God's purposes.
